Dear parents/caregivers:

Your child has been referred to me by your GP/Paediatrician for an assessment of their emotional and/or behavioural problems. **I will be seeing your child for a ONE-TIME consultation only.** After I see them, I will send a written report to the referring doctor (it takes about 3 weeks to get there) with my opinion on what's going on and my recommendations on what to do to help. **Follow-up will be with the referring doctor.** I do not see patients for regular follow-up. When you come to the appointment, it is best if both parents come. If your child requires direct supervision, please try to bring someone who can watch them as I may need to spend some time talking to you without them present.

The questionnaire that follows **MUST BE COMPLETED AND RETURNED TO MY OFFICE IN ORDER TO HAVE AN APPOINTMENT SCHEDULED.** Please give the Teacher Questionnaire (optional) to the teacher who knows your child best (if you can) and have them return the completed form to you, so that you can return all of the forms together. They can also visit my website (www.doctor templeman.com), and complete it online. Whenever possible, the Parent Questionnaire should be filled out by **both parents together**. Please make note of any disagreements in ratings beside the item in question.

IF your child is currently taking **medication** for psychiatric or behavioural issues, please go to your pharmacy and get a "Medication History" printed out to send to me along with the questionnaires.

The following additional/optional information is helpful:

- Their June report card for the last 5 years (if applicable) and their **most recent** IEP (if applicable).
- Reports from any educational testing that was done (if applicable/available).
- Reports from any previous psychiatrists or therapists who saw them (if applicable).

On my website (www.doctor templeman.com), under the Resources link, there are some handouts that will be helpful for **you** (especially if you are struggling with managing their anxiety or behaviour). In them, I outline some strategies that you can put in place right away which will help in the interim until we meet. I **strongly recommend** that you go and download the relevant ones and read through them **before** meeting with me so that if there is anything in the handouts that is unclear or confusing, we can go over it when we meet.

If you are unable to keep your appointment, **48 HOURS (2 WORKING DAYS EXCLUDING WEEKENDS)** notice of cancellation is required. Most assessments are 1½ - 2 hours in length. Missed appointments are not paid for by OHIP and will be billed directly to you (\$200.00). If an assessment is missed, I will not reschedule it until the fee is paid in full.

Sincerely,

Dr. David Templeman B.Sc. MD FRCPC DCAP

20. Does his/her facial expression usually seem appropriate to the particular situation, as far as you can tell?

For some behaviours, it is most helpful to focus on the time period between the 4th and 5th birthdays. You may find it easier to remember how things were at that time by fixing it in your mind in relation to key happenings such as starting school, moving house, holiday time, or any events that are particularly memorable for you as a family.

Pragmatics Profile (PP)

Read each item and circle the number (word) that best describes how often the child demonstrates the skill (1 = never, 2 =sometimes, 3 =often, 4 =always). If you have never observed the skill, circle NO for *not observed*. If the skill is not appropriate for that child, either culturally or for any other reason, circle NA for *not appropriate*. Rate items if you remember occasions when the child demonstrated the targeted behavior, though you have not necessarily observed the behavior the day you complete the form.

If you are rating a two-part skill (e.g., Item 11, *asks for/responds to*) and think the child's behavior is inconsistent across both parts, circle the skill you are rating (e.g., *asks for*).
